## Wedding & Anniversary Gift Guide

### For the Bride and Groom

Everyone knows some one who is getting hitched this summer.

You can risk buying them a third toaster or a fondue set they will never use. Or you could send them something really special and unique!

Personalize a bottle of wine with the lucky couples' name and wedding date or even a photo creating a one of a kind gift.

### For the Bridesmaids

To thank them for wearing those hideous dresses you picked out, enroll you bridesmaids in our Flower or Plant of the Month Clubs.

You can choose anywhere from 2 to 12 month memberships.

Just tell us when you would like the first delivery and we will take care of the rest! It's as easy as that. Don't you wish we were wedding planners?

### For the Groomsmen

You know those embarrassing blackmail photos you have been saving up of all your best buds? We have an excuse for you to finally use them.

By far our most popular gift for groomsmen is personalized beer.

You don't have to use embarrassing photos but it makes the beer so much more fun! Not as much fun as drinking it though.

### For an Anniversary

What better way to help someone celebrate than with one of our luxurious wine gift baskets.

Make your gift the one they can't forget, a bottle of wine, with their picture on the label!

One personalized bottle by itself as a gift or you can really impress them by adding it to an already impressive gift basket.

## What **Not** to Do for Your Anniversary

Before you think about what to do for your wife, take a look at what not to do on this special day.

### DO NOT:

- Make her an early morning cup of tea or coffee while forgetting whether she takes sugar, milk, lemon or otherwise.
- Offer to attend to the laundry, and then take it to your mother.
- Make comments relating to what a wonderful cook your mother is.
- Give her a cooking book, or any other book that remotely contains any reference to words such as housekeeping, budgeting, diet or exercise.
- Purchase lingerie that is three sizes too small for her.
- Give her something she specifically said she didn't want.
- Buy her a year's subscription to your favorite magazine.
- Buy her a lawn mower. Although your intention may be to say you will be mowing the lawn for her, this is the equivalent of her buying you a new kitchen appliance.
- Buy her a vacuum cleaner unless she specifically asked for one.
- Buy her revealing lingerie if you know she hates it.
- Point to her wedding dress and suggest she tries to squeeze into it tonight.
- Forget the flowers if you know she likes them.
- Plan on taking her to the amateur fight night for a close and cultural evening together.
- Take her to dinner, then an action movie, and then go home to top it off with wrestling matches on TV.
